PROFESSIONAL SUMMARY

Automation Engineer and Software Quality Assurance professional with 5+ years of experience in manual and automation testing of enterprise web applications, decentralized platforms, and financial systems. Experienced in designing and maintaining Cypress automation frameworks, executing Functional, Regression, Smoke, Sanity, API, Cross-Browser, and End-to-End (E2E) testing.

Strong background in HRMS, Payroll, Web3/Blockchain applications, crypto wallets, and payment gateway integrations. Skilled in test planning, test case design, defect management, Agile methodologies, and delivering high-quality software through effective collaboration with cross-functional teams.

CORE COMPETENCIES

- Cypress Automation & JavaScript
- Web3 & Blockchain Testing
- Crypto Wallets & Payment Gateways
- Manual & Functional Testing
- API Testing (Postman)
- Regression, Smoke & Sanity Testing
- End-to-End (E2E) & Cross-Browser Testing
- Test Case Design & Bug Tracking
- Agile / Scrum & SDLC / STLC
- Git, Trello, Jira

PROFESSIONAL EXPERIENCE

Automation Engineer

Magnus Mage | Lahore, Pakistan

Dec 2025 – Present

- Designed and maintained Cypress automation frameworks for enterprise web applications.
- Automated regression suites to improve release quality and reduce manual testing effort.

- Executed Functional, Smoke, Sanity, Regression, API, Cross-Browser, and E2E testing.
- Created reusable automation scripts and maintained test suites.
- Reported defects and collaborated with developers throughout Agile sprints.
- Prepared release validation reports and contributed to QA process improvements.
- **Environment:** Cypress, JavaScript, Git, Agile

QA & Automation Engineer

Oyas-Trans | Remote

Mar 2024 – Nov 2025

- Developed and maintained Cypress automation test suites.
- Automated business-critical workflows and increased regression coverage.
- Performed manual Functional, Regression, Smoke, Sanity, and End-to-End testing.
- Designed and executed test cases from business requirements.
- Verified bug fixes and supported production releases.
- Worked closely with developers and product managers to improve software quality.
- **Environment:** Cypress, JavaScript, Git, Agile

Quality Assurance Engineer

Datum Brain | Lahore

Nov 2021 – Mar 2024

- Created and executed test plans, test cases, and test scenarios.
- Performed Functional, Regression, Smoke, UAT, and End-to-End testing.
- Logged, tracked, and verified defects using Trello.
- Collaborated with developers throughout the SDLC.
- Prepared QA reports and maintained testing documentation.
- Conducted testing for decentralized finance (DeFi) components, smart contract transactions, and crypto wallet integrations (e.g., MetaMask connection, transaction signing, and balance tracking).
- Performed comprehensive end-to-end testing for third-party payment gateways, verifying transaction lifecycles, webhooks, payment success/failure flows, refunds, and multi-currency processing.
- **Environment:** Manual Testing, Trello, Agile, Web3, Payment Gateways

SELECTED PROJECTS

Blockchain & Web3 Application Testing

- Tested decentralized application (dApp) workflows, smart contract interactions, and token transfers.
- Validated crypto wallet connectivity, network switching, gas fee calculations, and secure transaction signing.

Payment Gateway Integration Testing

- Performed rigorous transaction flow testing across multiple payment gateways, verifying secure tokenization, callbacks, error handling, and webhook responses.
- Tested edge cases for failed transactions, currency conversions, and refund workflows.

HRMS Automation Framework

- Developed Cypress automation scripts for HRMS modules including Employee Management, Attendance, Leave Tracker, Roles, Departments, and Payroll.
- Automated regression scenarios and validated critical business workflows.

Payroll Application Testing

- Tested payroll calculations, pay runs, gratuity, provident fund, salary assignments, approvals, reports, and payroll workflows.
- Executed functional, regression, exploratory, and API testing.

EDUCATION

- **Master of Science (MS) – Computer Science**
  Virtual University of Pakistan | 2017
- **Master of Computer Science (MCS)**
  Virtual University of Pakistan | 2013

PREVIOUS EXPERIENCE

Coordinator – Computer Science & Team Leader

Concordia Colleges, Beaconhouse (2014 – 2021)

- Led academic quality assurance, LMS management, faculty coordination, centralized examinations, and digital learning initiatives across multiple campuses.
